Allowable Subject Matter

1. Applicants arguments filed on 11/16/2007 about the double patenting rejection with the copending application 11/647,928 are persuasive because of the cancellation of claims 2-30 on 12/29/2006.

2. *Claims 1-30 are allowed.*

The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 11, 17 and 19, the prior art of Lin (US Patent No. 6,069,061) fails to disclose a method for forming a gate electrode for a metal oxide semiconductor device with all the sequence of steps that include: "depositing a thin first gate electrode layer of a predetermined thickness on first dielectric layer defining an interface, the thickness of first gate electrode layer selected to minimize gate depletion adjacent interface" as defined in amended independent claims 1, 11, 17 and 19.

With respect to claim 24, the prior art of Lin (US Patent No. 6,069,061) fails to disclose a method for forming a gate electrode for a metal oxide semiconductor device with all the sequence of steps that include: "doping dielectric layer at an implant energy selected such that the dopant is contained within the dielectric layer" as defined in applicants' independent claim 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Delete term "***relatively***" from all independent claims 1, 11, 17, 19 and 24

Authorization for this examiner's amendment was given in a telephone interview with Attorney John Paniaguas on Dec 10th, 2007.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maki A. Angadi whose telephone number is 571-272-8213. The examiner can normally be reached on 8 AM to 4.30 PM.
